Creative Wheel House - Visual Evolution

Jeremy Longshore

January 10, 2026

---

1 Creative Wheel House - Visual Evolution

A chronological record of project architecture and workflow evolution.

How to read: Most recent session at top. Optimized for color printing.

Note: Landscape optimization for wide diagrams is a work in progress.

1.1 Session: Jan-10-2026

1.1.1 Technical Architecture Overview

System architecture showing client, compute, AI/ML, and data layers.

1.1.2 GCP Infrastructure Architecture

Production cloud infrastructure with Vertex AI, Cloud Run, and data services.

1.1.3 Session Progress Metrics

Current session statistics and workflow status.

1.1.4 Session Workflow Pipeline

End-to-session automation from code changes through delivery.

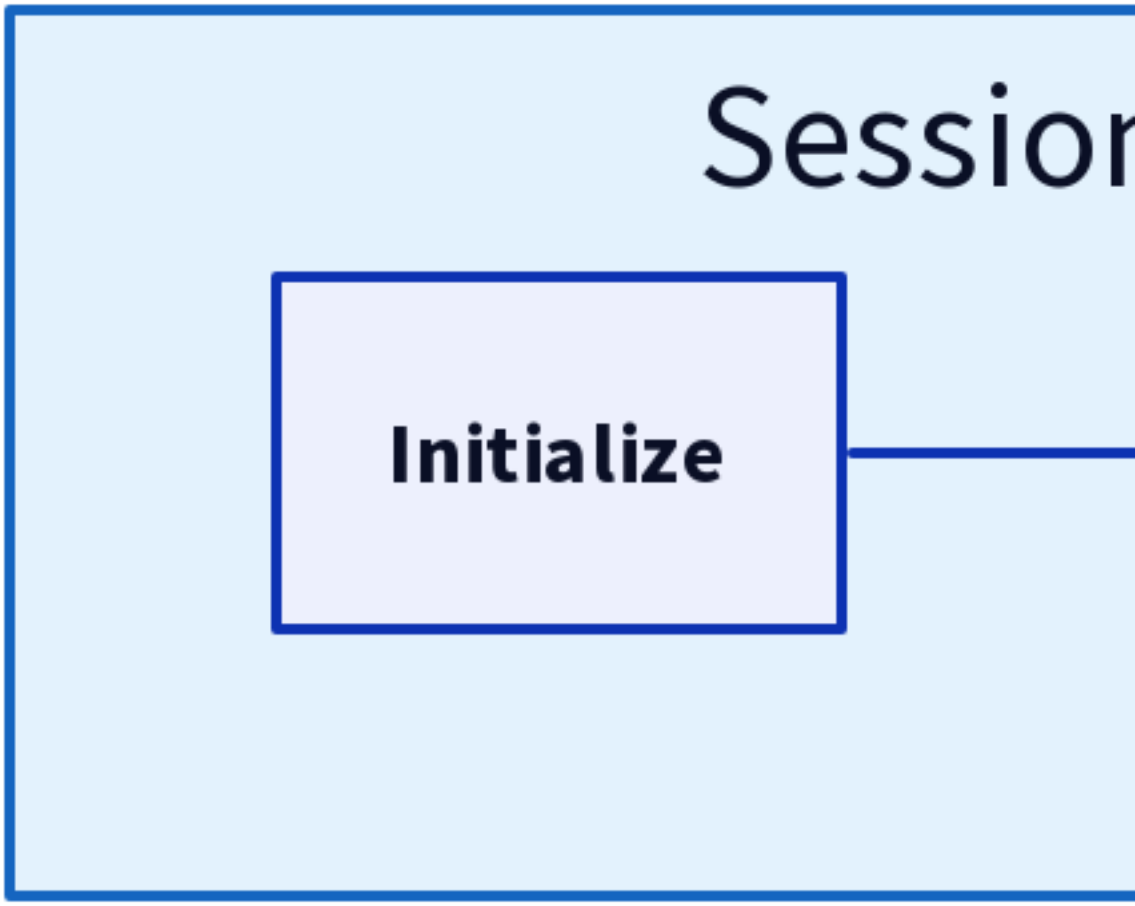
Session Progress - Jan

Creative Wheel House



1.2 Session: Jan-09-2026

1.2.1 GCP Infrastructure Architecture

Production cloud infrastructure with Vertex AI, Cloud Run, and data services.

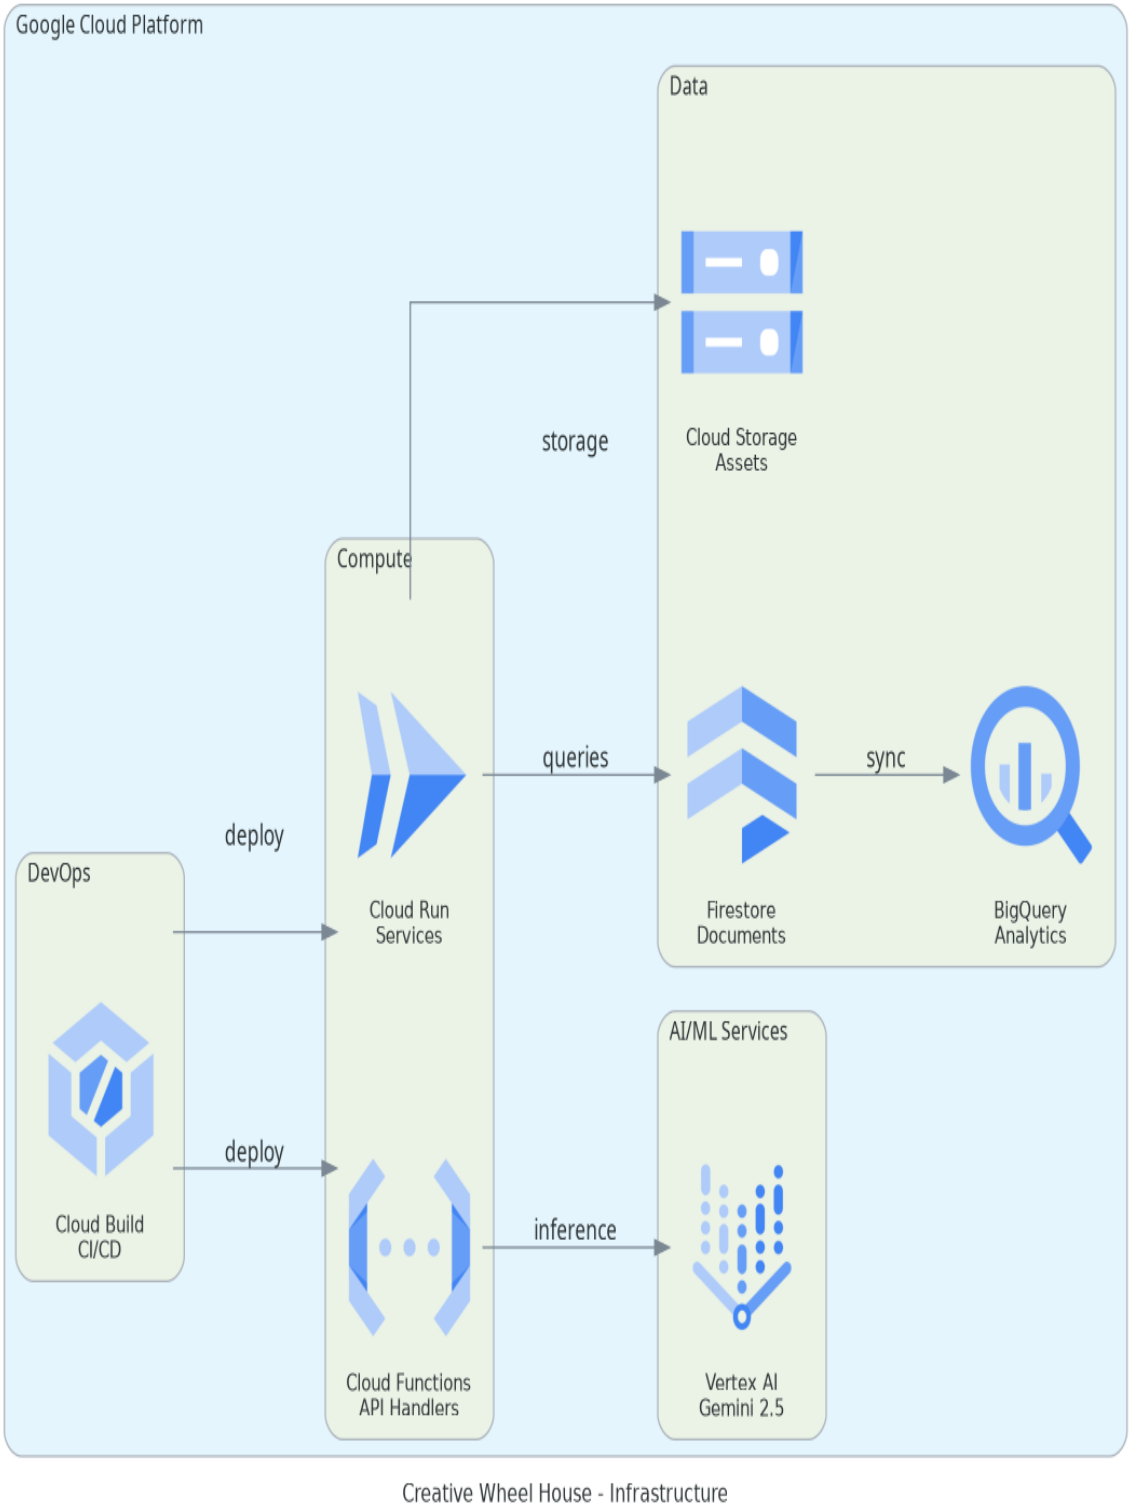


Figure 5: GCP Architecture

1.2.2 Technical Architecture Overview

System architecture showing client, compute, AI/ML, and data layers.

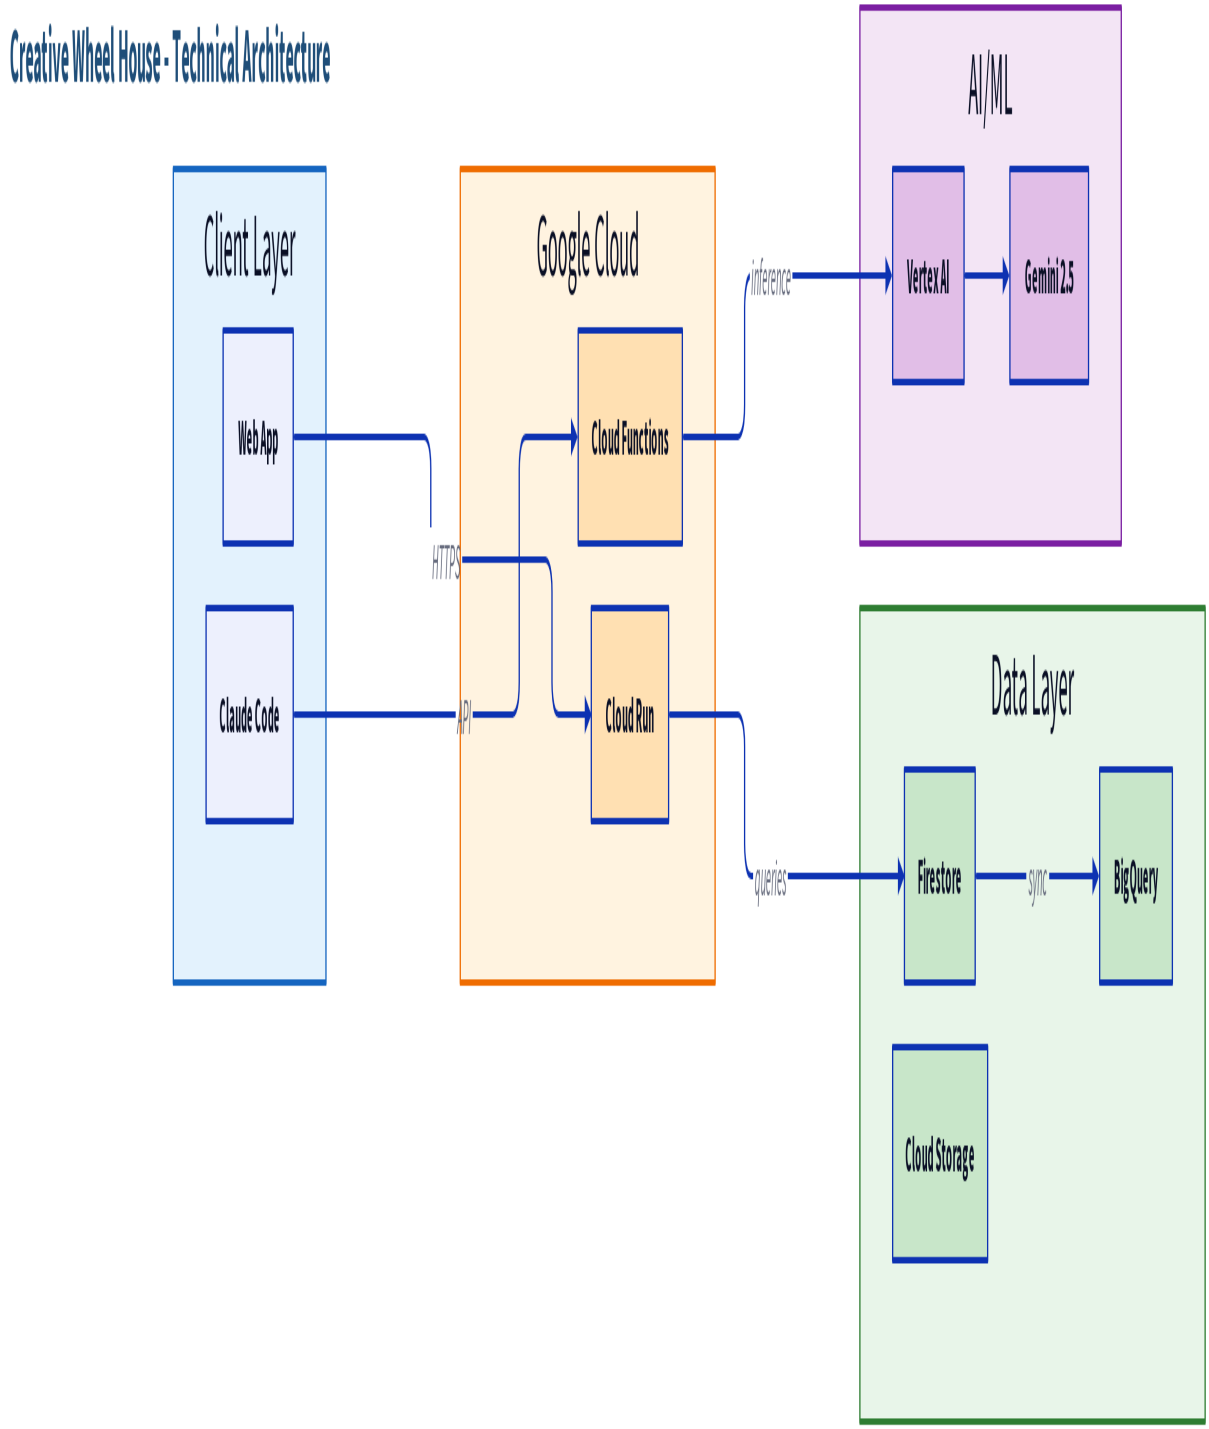

Figure 6: Technical Architecture

1.2.3 Session Workflow Pipeline

End-to-session automation from code changes through delivery.

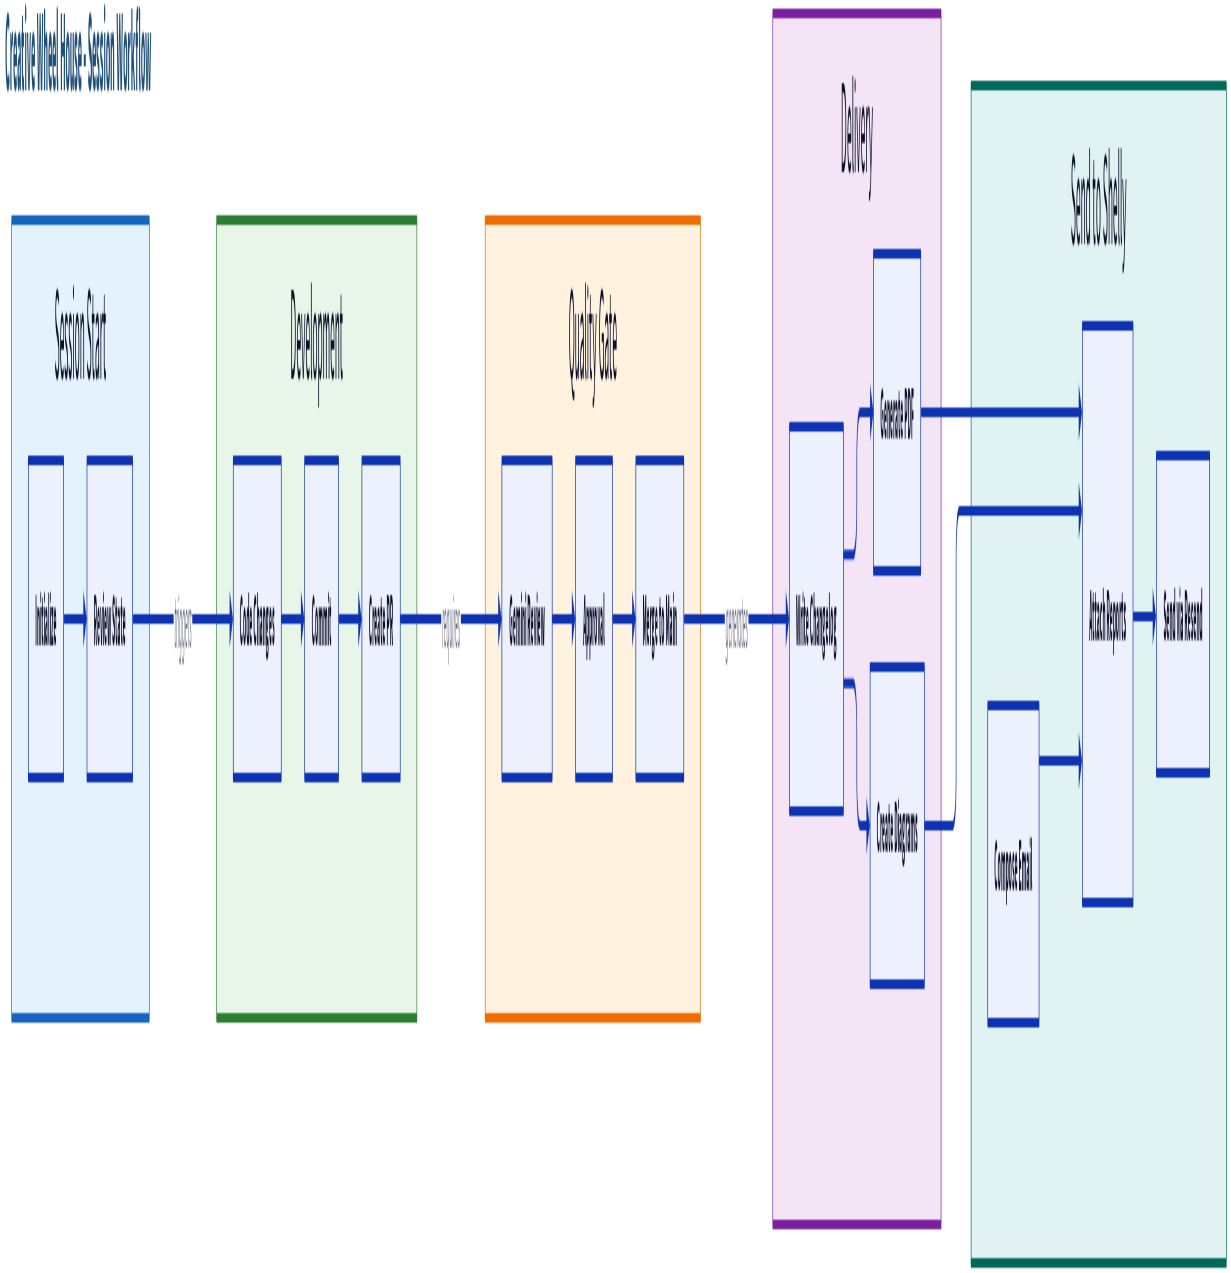

Figure 7: Workflow

1.2.4 Session Progress Metrics

Current session statistics and workflow status.
